Economics (ECO)

The Department of Economics offers two majors, one in Economics and one in Business Economics. For either major, students have a choice of receiving the BA degree or the BS degree depending upon how they meet the college’s general education natural science requirement. Students may major in Economics and Accounting or Finance. Students may NOT major in both Business Economics and any one of the following: Accounting, Economics, or Finance.

Students majoring in Economics or Business Economics may obtain an Emphasis in Information Management (http://catalog.wofford.edu/archive/2014-15/courses-programs-departments/computer-science). The interdisciplinary field of information management applies computer science to business. For requirements, see the Catalog section on Information Management.

Honors Courses, In-Course Honors, and Research

The Department of Biology encourages its students to undertake honors work. For further information, the student is referred to the sections on Honors Courses (http://catalog.wofford.edu/archive/2014-15/academics/academic-honors/honors-courses) and In-Course Honors (http://catalog.wofford.edu/archive/2014-15/academics/academic-honors/honors-courses) in the Catalog.

Writing Intensive Electives
Select two courses from the following:
ECO 311 Economic History of the United States
ECO 332 Law and Economics
ECO 334 Economics of Property Rights

ECO 338 Water: Law, Economics and Policy
ECO 340 Economics of Medical Care
ECO 344 Education & Inequality: A Socio-Economic Perspective
ECO 374 Due Process
ECO 412 Public Finance
ECO 421 Economics of Regulation
ECO 441 Comparative Economic Systems

Upper-Level Electives
Select 9 additional credit hours in Economics (ECO) at the 300- or 400-level

Total Hours
31

Students majoring in Economics who seek to complete secondary education licensure requirements to teach social studies in should refer to the Teacher Education Handbook and consult with the chairs of the Departments of Economics and Education to plan for the required related work in the areas of history, geography, government, and sociology.

Select one course from the following:
ECO 311 Economic History of the United States
ECO 332 Law and Economics
ECO 334 Economics of Property Rights
ECO 336 Economics of Native Americans
ECO 338 Water: Law, Economics and Policy
ECO 340 Economics of Medical Care
ECO 344  Education & Inequality: A Socio-Economic Perspective
ECO 374  Due Process
ECO 412  Public Finance
ECO 421  Economics of Regulation
ECO 441  Comparative Economic Systems

Economics Elective  3
Select one additional Economics (ECO) course at the 300- or 400-level

Total Hours  37

1 Students who twice fail a pre-requisite (Math 140, MATH 160 or 181), may appeal for exemption from that pre-requisite. The request must be submitted before the end of the add/drop period of the subsequent semester in which the course was completed. The faculty of the Economics Department will review the appeal. The faculty’s decision is final.

2 Students must earn a grade of ‘C’- or higher in ECO 201 and 202 for both the Economics and Business Economics majors.

Requirements for the Minor in Economics

The minor in Economics is not available to students majoring in Business Economics.

ECO 201  Principles of Microeconomics  3
ECO 202  Principles of Macroeconomics  3
ECO 322  Money and Banking  3
Two additional Economics courses at the 300- or 400-level  6

Total Hours  15

1 ECO 201 and 202 must be completed with a grade of ‘C’- or higher.

ECO 311. Economic History of the United States. 3 Hours.
A historical treatment of the economic development of America from colonial times to the present. Writing intensive.
Prerequisite: ECO 201 with a minimum grade of C- and ECO 202 with a minimum grade of C-.

ECO 322. Money and Banking. 3 Hours.
A study of the relationship between money and the level of economic activity, commercial and central banking, credit control under the Federal Reserve System, and the theory and objectives of monetary policy.
Prerequisite: ECO 201 with a minimum grade of C- and ECO 202 with a minimum grade of C-.

ECO 332. Law and Economics. 3 Hours.
An economic analysis of Anglo-American legal institutions with emphasis on the economic function of the law of property, contract, and torts. Writing intensive.
Prerequisite: ECO 201 with a minimum grade of C-.

ECO 333. Environmental Economics. 3 Hours.
The application of economic principles to explain the existence of environmental problems and to evaluate proposals for improving environmental amenities.
Prerequisite: ECO 201 with a minimum grade of C-.

ECO 334. Economics of Property Rights. 3 Hours.
A study of private property rights, communal property, and open access resources from both an economic and legal perspective. Writing intensive.
Prerequisite: ECO 201 with a minimum grade of C-.

ECO 336. Economics of Native Americans. 3 Hours.
A study of how American Indian institutions were shaped by their culture, traditions, environment, and changes in technology. Successful completion of this course satisfies the Cultures and Peoples requirement for graduation.
Prerequisite: ECO 201 with a minimum grade of C-.

ECO 338. Water: Law, Economics and Policy. 3 Hours.
A study of the various political, legal and social institutions involved in mediating conflicting desires for water resources.

ECO 340. Economics of Medical Care. 3 Hours.
The application of economic theory to study the delivery of medical services in a managed care environment. Transactions between patients, medical care providers and third party payers will be examined to show how patients are made, costs are covered, and contracts are written. Writing intensive.
Prerequisite: ECO 201 with a minimum grade of C-.

ECO 342. Economics of Public Policy. 3 Hours.
Application of economic principles to determine the trade-offs, the direct and indirect effects, and the consequences—both intended and unintended—of public policies.
Prerequisite: ECO 201 with a minimum grade of C-.

ECO 344. Education & Inequality: A Socio-Economic Perspective. 3 Hours.
A study of income inequality in the United States, the economics of education, and the relationship between education and income distributions. Writing intensive.
Prerequisite: ECO 201 with a minimum grade of D.
ECO 345. Economics of Crime. 3 Hours.
An overview of how economic theory can be applied to analyze the dynamics of criminal activities. Students will learn how to use economics to examine the costs of crime, the behavior of criminals and potential criminals, the markets for criminal behavior and the goods and services that are produced in them, organized crime v. disorganized crime, and the public policies aimed at dealing with crime. Current issues that will be discussed include: the death penalty, gun control, and the legalization of criminal activities such as drug use, prostitution and gambling. 
Prerequisite: ECO 201 with a minimum grade of D.

ECO 350. Behavioral Economics. 3 Hours.
A theoretical and empirical analysis of the connection between economics and other behavioral sciences, usually with the use of laboratory and field experiments. The course is divided into two parts: 1) Individual Decision-Making, and 2) Behavioral Game Theory. Applications range from analysis of self-control problems to the consequences of social preferences and cognitive limitations.
Prerequisite: ECO 201 with a minimum grade of D.

ECO 372. Business Law. 3 Hours.
A study of the contracts, uniform commercial code, and the legal environment of business. Cross-listed as Business 372.

ECO 374. Due Process. 3 Hours.
This course is designed to give the student an understanding of the legal concept of due process and how it has changed views of fairness in everyday life. Using the historical/legal background of due process, the student will apply those concepts to other situations and systems.
Prerequisite: ECO 372 with a minimum grade of D.

ECO 401. International Economics. 3 Hours.
Studies the impact of specialization and exchange on human well-being; evaluates the winners and losers when the U.S. raises or reduces its tariffs; examines the broader sociopolitical debate over globalization, especially the conflicting perspectives on the effects of international trade on child labor and the fabric of so-called "Third-World" cultures. Offered in the spring of odd-numbered years.
Prerequisite: ECO 301 with a minimum grade of B-.

ECO 402. International Macroeconomics. 3 Hours.
Survey of the forces that shape the U.S. international balance of payments. Impact of U.S. growth and U.S. inflation on domestic and foreign interest rates, imports, exports, the dollar's value in relation to foreign currencies, and the net flow of capital between the U.S. and other countries. Offered in the spring of even-numbered years.
Prerequisite: ECO 302 with a minimum grade of D.

ECO 412. Public Finance. 3 Hours.
A theoretical and institutional analysis of government expenditure, taxation, and debt, including economic analysis of government decision making and the distributional effects of alternative tax and subsidy techniques.
Prerequisite: ECO 301 with a minimum grade of D.

ECO 421. Economics of Regulation. 3 Hours.
Economic tools are used to study the formation and impact of federal, state, and local regulations, including rules on industrial structure, prices, labor, consumer products, health, and the environment.
Prerequisite: ECO 301 with a minimum grade of D.

ECO 422. Game Theory. 3 Hours.
This course is an analytical tool to model strategic interactions that is widely used in economics, political science, biology, psychology, and sociology. The course is intended to provide an introduction to the main concepts and techniques of the field, and use them to investigate relevant economic phenomena, such as bargaining, auctions, the "prisoner's dilemma", the "tragedy of the commons", tacit collusion, competition among firms, and strategic interactions in labor, credit, and product markets.
Prerequisite: MATH 160 with a minimum grade of D or MATH 181 with a minimum grade of D.

ECO 424. Advanced Game Theory. 3 Hours.
Game Theory is an analytical tool that models strategic interactions. It is widely used in economics, political science, biology, sociology, and psychology. This advanced class is intended to provide a more rigorous introduction to the main concepts and techniques of the field. These techniques will be used to investigate relevant social phenomena, such as evolutionary games, auction theory, the "prisoner's dilemma," the "tragedy of the commons," tacit collusion, competition among firms, and strategic interactions in labor, credit, and product markets. The most important classes of games will be analyzed (zero-sum games, cooperation problems, coordination games, bayesian games, signaling games, etc.), as well as the most important solution concepts (rationalizability, nash equilibrium in pure and mixed strategies, bayesian nash equilibrium, and evolutionarily stable strategies). This course will also introduce students to the main techniques of game-theoretic mathematical modelling. Pre-requisite: MATH 210.
Prerequisite: MATH 210 with a minimum grade of D.

ECO 432. Managerial Economics. 3 Hours.
The application of economic analysis to the management problems of coordination, motivation, and incentives within organizations. Writing intensive.
Prerequisite: ECO 301 with a minimum grade of D and MATH 181 with a minimum grade of D or MATH 160 with a minimum grade of D.

ECO 439. Mathematical Economics. 3 Hours.
A thoroughly interdisciplinary approach to mathematics and economics. Measures such as logarithms, derivatives, and integrals will be employed to interpret trends of phenomena such as consumer welfare, social costs, inflation, etc. The formulation of qualitative explanations (concise and simplified) of quantitative outcomes is the overarching objective of this course.
Prerequisite: MATH 160 with a minimum grade of C or MATH 181 with a minimum grade of C.

ECO 440. History of Economic Thought. 3 Hours.
A study of the evolution of economic analysis, including a brief survey of the economic ideas of Aristotle, the scholastics, mercantilists, and physiocrats, and a more detailed study of the economic analysis of the classicists, Marxists, marginalists, and Keynesians.
Prerequisite: ECO 201 with a minimum grade of C- and ECO 202 with a minimum grade of C-.
ECO 441. Comparative Economic Systems. 3 Hours.
Contrasts the nature and characteristics of a free-market economy against the centrally-orchestrated mechanisms of managed economies such as socialism/communism, fascism, and the so-called 'crony mercantalism' that prevails in most of modern-day Africa, Latin America, and the Middle East. Writing intensive. Successful completion of this course satisfies the Cultures and Peoples requirement for graduation.
Prerequisite: ECO 201 with a minimum grade of C-.

ECO 450. Senior Seminar. 4 Hours.
A capstone course required of all students in their last year of study completing the major in Business Economics or Economics. Microeconomic and macroeconomic case studies are used to reinforce and evaluate the student's understanding of the economic way of thinking.

ECO 470. Independent Study. 1 to 3 Hours.
Study of a specific topic in economics under the direction of a departmental faculty member. The readings, program of research, and written work to be undertaken by the student will be determined in consultation with the instructor.

ECO 480. Advanced Topics in Economics. 1 to 4 Hours.
Topics may vary from year to year.
Prerequisite: ECO 201 with a minimum grade of C- and ECO 202 with a minimum grade of C-.

ECO 500. Honors Course. 3 Hours.
At the discretion of the faculty, students may undertake a six-hour independent course of study in the senior year in order to broaden their educational experience within their major area of study. Students must meet specific GPA standards and arrange a faculty sponsor. The honors course criteria are outlined in the Academic Honors portion of the catalog.
