

Multicultural Affairs

One of the goals of the Multicultural Affairs Office is to provide students with opportunities to engage difference and learn to appreciate the civil discourse that can occur between individuals willing to share their experiences and beliefs. Regardless of race, class, religion, sexual orientation, gender or physical disability, students must be able to engage any individual in a knowledgeable and respectful manner. The staff realizes the special attention needed to ensure that many students of color have their cultures and identities explored and represented in higher education, so we commit resources to provide this targeted support and programming both academically and socially.
