

Education (EDUC)

The Education Minor offers students a solid foundation in education by studying educational philosophies, current pedagogy, and completing field experiences in local classrooms. The minor requires six education courses and one Education (EDUC) Interim. Students should begin the coursework as early as possible so that all of the requirements may be fulfilled.

By completing the education courses at Wofford, students will be well prepared to earn a traditional teaching certification, pursue a graduate degree, or non-traditional teaching certification. The minor is not limited to students who only plan to teach; students who plan any type of career in schools, counseling, or other similar fields will benefit from this minor.
